

InnuPure® C16 *touch*

The New Standard in Automated Extraction

InnuPure® C16 touch combines highly precise liquid handling with automated extraction of high-quality nucleic acids.

- Efficient: Fully automated nucleic acid extraction
- Easy: Prefilled reagent strips and/or plates simplify handling
- Established: Over 25 years of experience in liquid handling
- Reliable: Risk of cross-contamination eliminated
- Convenient: Intuitive operation with IPextract and integrated 10" tablet PC
